# Process Pilot™ Closed-loop Control Workshop 2010

**Automated Blowmolder Management  
and Process Control**

Dallas, TX • March 3  
Atlanta, GA • May 5

Sponsored by Agr International, Inc.

**Discover the wealth of information that you can use to improve blowmolder efficiency and facilitate enhanced process management on a daily basis!**

**By attending this workshop, you will:**

- ✓ Learn the latest blowmolder process management practices
- ✓ Become aware of the importance of material distribution and how it affects your final production
- ✓ Learn ways to automatically measure and monitor material thickness of PET containers, accurately and repeatably
- ✓ See how to identify production variations, as they occur, and make immediate corrections
- ✓ Participate in hands-on demonstrations of material distribution measurement and closed-loop blowmolder control

**Key PET Container Performance Areas Directly Related to Material Distribution**

**Creep  
Gas Permeation  
Burst  
Stress Crack  
Rigidity  
Bottom Roll-out  
Topload**
